

HostDownloader User Guide

Liyuxun PLC Host - First installation and recovery download

Official download: <https://download.liyuxuntech.com/HostDownloader.exe>

HostDownloader is a small standalone downloader. It does not require Microsoft .NET or the Visual C++ Redistributable.

Supported systems

Windows 7, Windows 10 and Windows 11 on 64-bit PCs. HostDownloader detects the Windows version automatically and selects the correct package.

First installation

- 1 Download HostDownloader.exe from the official link above.
- 2 Run the program. If Windows shows a security prompt, confirm that the file came from download.liyuxuntech.com before continuing.
- 3 Choose an installation folder. Use an empty folder that you can easily find later.
- 4 Keep Create desktop shortcut selected if you want a desktop icon.
- 5 The downloader selects the correct Windows package, downloads it, verifies its size and SHA-256 value, and extracts it.
- 6 After installation, Liyuxun PLC Host starts automatically. Later updates run from the installed application folder and do not ask for the folder again.

Important notes

Do not move or delete files while installation or update is running. Keep the application data folder when upgrading. If an update is interrupted, start Liyuxun PLC Host again; the updater is designed to preserve the previous working version.

Troubleshooting

Download is slow: keep the downloader open. It uses resumable multi-part downloads and can continue after temporary network interruptions.

Unsupported application message: confirm that Windows is 64-bit. The installed PLC Host packages are x64.

Installation does not start: download HostDownloader again from the official address and choose a new empty folder.

HostDownloader 使用说明

Liyuxun PLC Host - 首次安装与恢复下载

官方下载地址: <https://download.liyuxuntech.com/HostDownloader.exe>

HostDownloader 是独立的小型下载程序, 不需要预先安装 Microsoft .NET 或 Visual C++ 运行库。

支持的系统

支持 64 位 Windows 7、Windows 10 和 Windows 11。程序会自动识别 Windows 版本, 并选择正确的软件包。

首次安装步骤

- 1 从上面的官方地址下载 HostDownloader.exe。
- 2 运行下载程序。如果 Windows 显示安全提示, 请先确认文件来源是 download.liyuxuntech.com。
- 3 选择安装目录。建议使用一个容易找到的空文件夹。
- 4 如果需要桌面图标, 请保留默认的创建桌面快捷方式选项。
- 5 程序会选择正确的 Windows 软件包, 完成下载, 校验文件大小和 SHA-256, 然后自动解压。
- 6 安装结束后会自动启动 Liyuxun PLC Host。以后升级会使用已经保存的程序目录, 不再要求重新选择。

重要提示

安装或升级过程中不要移动、删除程序文件。升级时应保留应用数据目录。升级被中断时, 可重新启动 Liyuxun PLC Host; 升级程序会尽量保留原来可运行的版本。

常见问题

下载速度较慢: 请保持下载程序运行。程序支持多段下载和断点续传, 网络短暂中断后可以继续。

提示不支持的程序: 请确认 Windows 是 64 位系统, PLC Host 安装包仅支持 x64。

无法开始安装: 请从官方下载地址重新下载 HostDownloader, 并选择新的空目录。

需要排查故障: 请保留错误提示, 并提供诊断日志 %TEMP%\VisionPickPlaceDownloader.log。
